

Welcome to the 2017-2018 school year!

In our effort to go green, all of your 1st day information will be available online.

In order to complete your 1st day enrollment paperwork, you will need to set up a txConnect account for your child(ren). You should have received login/portal id information for each child. Student portal id is also listed on your child's report card. If you didn't receive this information, forgot your log in information, or have any questions please contact Sybil.Allen@leanderisd.org or Eloise.Myers@leanderisd.org.

What is txConnect? <https://itccs.gb.esc20.net/PALN/Login.aspx>

Parents can use txConnect to Stay Connected to Student's Academic Progress

The district's online tool, txConnect; allows LISD parents to easily monitor their child's achievement throughout the school year. LISD parents can use txConnect to access their child's grades and assignments as well as view and print their child's interim progress reports and report cards. To further support student learning, reduce absenteeism and improve behavior. TxConnect provides parents with their child's STAAR (or TAKS) results, along with their immunizations, attendance and student discipline reports. Parents can use txConnect to view, update and print first-day packet forms. These features help parents stay connected to their child's education on an ongoing basis.

What forms will be included in the on-line registration forms for parents to complete? (hard copy can be picked up in the guidance office)
